

**HELP THE NEIGHBORHOOD CATS
AND SAVE YOUR TAX DOLLARS!!**

Learn Trap-Neuter-Return & Get the Problem Under Control

Training will take place on March 9th from 6-8pm at Parnell Memorial Library in Montevallo (277 Park Drive)
Communities throughout Alabama now face a population crisis of homeless cats, many of them feral and too wild to be placed in homes. They reproduce rapidly and, as their numbers grow, so does the noise, odor and other problems. But now there's something you can do!!

Trap-neuter-return (TNR) involves trapping all the cats in a colony, getting them neutered, adopting out the kittens and friendly cats, then returning the wild adults to their territory and providing them with food and shelter. TNR eliminates or significantly reduces the noise from fighting, odor from spraying and more litters of kittens.

This progressive approach is fast becoming the preferred method of street cat population control throughout the nation. A managed TNR program reduces cat intake at local shelters, saving tax dollars. Numerous agencies have endorsed TNR and its use grows every day. Free and low cost spay/neuter services and training are available.

***Join the growing movement of enlightened
and compassionate caretakers!!!!***
